Marco D'Antonio

Software Developer

Pescara, PE | +39 3338880522 | me@marcodantonio.it
github.com/marcodantonio | LinkedIn | marcodantonio.it

Software developer with experience in web services, CI/CD automation, and computer vision prototypes. I connect application development and infrastructure, from backend services to cross-platform applications.

Work Experience

Netsons January 2025 - Present

Software Developer

- Develop and integrate PHP/JavaScript web features and services with the systems team.
- Automate releases through CI/CD pipelines and Docker-based environments.

Stack: PHP · JS · HTML5 · CSS · MySQL · Web RESTful Services · CI/CD · Docker

Aptar 2023 - 2024

Internship - AI and Computer Vision PoC

- Built Python tooling to generate synthetic datasets in Blender and trained a YOLO model.
- Developed an AI PoC for marketing across web, mobile, and Apple Vision Pro, usable online and offline.

Stack: Python · Angular · Ionic · CI/CD · Docker · Swift

Education

Politecnico di Torino In progress

Master's degree in Computer Engineering

Track: *Computing and Network Infrastructures*: cloud computing, distributed systems, computer architectures, and enterprise networks. Member of PoliTO's **Dual Career** programme, combining university studies and competitive sport.

University of L'Aquila March 2025

Bachelor's degree in Computer Science (100/110)

Studies in software development, AI/ML, web engineering, and object-oriented programming. Thesis: *Computer Vision and Mixed Reality for Product Prototyping with Apple Vision Pro*.

Side Projects

Clothing E-commerce JS · HTML5 · CSS · PHP · Bootstrap

E-commerce with search filters, order and shipping workflows, reviews, ratings, and a MySQL-backed admin panel.

University Classroom Management System JS · HTML5 · CSS · Web RESTful Services · MySQL · OpenAPI

REST platform for classroom booking, event coordination, monitoring, admin workflows, OpenAPI documentation, and MySQL data management.

Machine Learning Recommendation Engine Python

Modular recommendation system combining static and dynamic user preferences across different datasets and domains.

Car Rental Desktop Application Java · JavaFX · HTML5 · CSS

Full-stack vehicle rental app with user interface, fleet administration, and RAM/file storage support.

Personal initiatives and sport

Homelab – infrastructure, AI, and experimentation

My interest in networking and systems administration led me to design and maintain a home lab for experimenting with infrastructure, AI, and automation: a Proxmox cluster with 20+ services, VLANs, VPNs and advanced routing, a NAS with ZFS and RAID, and home automation.

Competitive dance – international competitions

International-level ballroom dancer and **17-time Italian champion**. I represent Italy in major international competitions, pursuing a sporting career that reflects discipline, dedication, and sustained commitment.

Languages: Italian (native), English (B2).

I authorize the processing of the personal data contained in my resume in accordance with LD. 196/2003 and EU Regulation 2016/679.
