# Marco D'Antonio

Software Developer

Pescara, Italy ▪ +39 333 888 0522 ▪ me@marcodantonio.it
github.com/marcodantonio ▪ linkedin.com/in/marcodantonio00 ▪ marcodantonio.it

## Profile

Software developer with hands-on experience in scalable web delivery, CI/CD automation, and AI-driven prototypes. Strong foundation in full-stack engineering, computer vision, and infrastructure-aware development.

## Core Stack

**Languages & Web**
PHP, JavaScript, Python, Java, Swift, HTML5, CSS, MySQL, REST APIs

**Delivery & Infra**
CI/CD, Docker, Linux, Proxmox, ZFS, VLANs, VPNs, routing

**Frameworks & Tools**
Angular, Ionic, Blender, Git, OpenAPI, Apple Vision Pro prototyping

## Languages

**Italian**
Native

**English**
B2

## Highlights

**Homelab**
Designed and maintain a Proxmox-based lab with 20+ services, NAS, home automation, and advanced home networking.

**Dance**
International-level ballroom dancer and 15-time Italian champion; regular representative of Italy in major competitions.

## Work Experience

### Netsons

January 2025 - Present

*Software Developer*

- Develop and integrate new web features and services in collaboration with the systems team.
- Deliver scalable solutions and automate delivery workflows through CI/CD pipelines and containerized environments.

PHP · JS · HTML5 · CSS · MySQL · Web RESTful Services · CI/CD · Docker

### Aptar

2023 - 2024

*Internship, Design and Implementation of PoC*

- Accelerated product dataset generation with Python tooling for Blender and trained a YOLO-based recognition model.
- Delivered an AI-enabled web, mobile, and Apple Vision Pro proof of concept for the marketing team, usable both online and offline.

Python · Angular · Ionic · CI/CD · Docker · Swift

## Education

### University of L'Aquila

March 2025

*Computer Science Degree (GPA: 3.6/4.0)*

Main courses: AI & Machine Learning: 30L, Web Technology: 30, Web Engineering & Advanced Web Development: 28. Focus on OOP and design patterns, full-stack web development, Python and Java, algorithms and data structures. Thesis: *Computer Vision and Mixed Reality for Product Prototyping with Apple Vision Pro*.

## Selected Projects

### Clothing E-commerce

JS · HTML5 · CSS · PHP · Bootstrap

Online store with search filters, order and shipping workflows, reviews, ratings, and an administrative back office.

### University Classroom Management System

JS · HTML5 · CSS · Web RESTful Services · MySQL · OpenAPI

REST-based platform for classroom booking, event coordination, tracking, and admin workflows in a university setting.

### Machine Learning Recommendation Engine

Python

Recommendation system based on static and dynamic user preferences, designed for reuse across different datasets and domains.

### Car Rental Desktop Application

Java · JavaFX · HTML5 · CSS

Full-stack rental management application with fleet administration and RAM/file-based storage support.
